

## **Karrinyup Men's Shed Bulletin 14 November 2018**

From: Karrinyup Men's Shed <kcmensshed@iinet.net.au>

**To: Karrinyup Community Men's Shed members**

### **Annual General Meeting**

We are looking forward to a great turn-out of our members at the AGM, Friday 16 November at 11am, followed by an informal lunch.

We would like as many people there as possible to meet our VIP guests.

### **Preparation for Annual General Meeting**

There will be a cleaning bee at the Shed on Thursday 15 November. This will commence with morning tea at 10am, then on to the cleaning jobs.

Anyone who can spare a couple of extra hours will be most welcome.

### **Careful use of tools**

Members are reminded to please use all tools carefully within the machine's limits, and to follow the instructions.

The drum sander has stopped working twice in two weeks. It is caused by trying to take too much off in each pass through, and/or by taking paint or other contaminant off in the sander.

Please do not force the wood into it, and when lowering to the next level, use no more than 1/8th of a turn each time.

### **Wood working terms and definitions**

Many wood working novices are perplexed when they hear the experts using terms such as biscuit joint, ripping, riving, morticer and many more.

The website "Sawdust Making 101" <http://sawdustmaking.com/> has lots of interesting articles which may help us to understand the language.
