Hepatitis C treatment awareness campaign

From August to October 2019, Hepatitis Australia is collaboratively working with its member organisation, Hepatitis WA, in Perth to implement the second cycle of a three-month hepatitis C treatment awareness campaign "TEST CURE LIVE".

During this cycle of campaign, we are paying particular attention to the City of Perth, City of Stirling and City of Wanneroo, and males over the age of 50s.

Some key messages of this campaign are:

Hepatitis C can be cured now;

The new hepatitis C treatment listed on the Pharmaceutical Benefits Scheme is affordable, safe and effective;

It has few side effects and a cure rate of 95%;

The treatment takes as little as 8 weeks with 1 pill a day;

It might be more than feeling tired and getting older.
